

EVOLVING THERAPEUTIC GOALS IN ULCERATIVE COLITIS

NOVEMBER 8th, 2023 | h. 5:00 pm CET

The second webinar focuses on the evolving therapeutic goals in the management of ulcerative colitis (UC). With advancements in research and understanding of UC, it is crucial to re-evaluate therapeutic goals beyond mere symptom relief. This webinar will delve into the historical perspective of UC treatment, the importance of sustained clinical remission, and the significance of histologic remission.
